

19 August 1985

NOTE FOR THE RECORD

SUBJECT: Discussion with Russ Neeley, OMB, Regarding Agency
Proposed Retirement Legislation

1. Russ Neeley called to attempt to set up a meeting with me this week as a follow up to the meeting held with OMB on 15 August. He specifically wanted to meet on Thursday, and I have tentatively set up a 10:30 meeting at Headquarters Building with him and [redacted] of the Comptrollers Office. STAT

2. He also wanted to go over the questions that we were working on and I gave him the substance of the MFR dated 15 August. He agreed with these questions and asked that we also provide more information on the 17 million dollar figure that was cited at the Thursday OMB meeting. In particular, he wanted to know if it was an annual figure or total cost of the program. He wanted to ensure that the paper on comparisons between plans included current CSRS, current CIARDS, Roth/Stevens proposal, and how our legislation differed. Included in this comparison would be cost of payroll differences.
